Re: Mill site at Aragonite, Utah

Dear Mr. Munson:

As indicated in my letter of August 27, 2002, we have dismantled the steel building next to the rail tracks. Further, we also removed the cement. We then cleaned the site of trash and debris. As indicated in our earlier letter, we have retained the Quonset type building.

Feel free to contact me at 355-0527 or my cellular at 580-8509 should you have questions or wish to discuss.

Very truly yours,

Sidney K. Hullinger
Senior Vice President
